## 06 SPARK

- 06 **Top Projects**  
Amazing builds to dazzle and inspire
- 16 **Objet 3d'art**  
The guitar Leo Fender wishes he could have made
- 18 **Letters**  
What's pushing buttons in the makersphere

## 21 LENS

- 22 **Toys and Games**  
Playful projects to relax the mind
- 32 **How I Made: Greening the Spark**  
A homemade electrical power grid simulator
- 38 **Interview: Kitronik**  
Building gear for the next generation of makers
- 46 **In the workshop**  
Blinky lights inspired by Islamic art

## Cover Feature

# TOYS & GAMES

Make your own fun and games  
with our roundup of the best playful  
projects for makers

22

## Tutorial

### Supercapacitor planes

64 Who knew the humble capacitor could power a flying machine?

94

## CONTENTS

06

## Review

### Spintronics

92 Model electronics with various gears, chains, and buttons

## Interview

### Kitronik

38 From Nottingham to the world – maker gear for the inventors of tomorrow

## 49 FORGE

- 50 **SoM TPU**  
Discover TPU: flexible 3D printer filament
- 52 **Tutorial Surface-mount soldering**  
Electronic connections in an itty-bitty space
- 58 **Tutorial Raspberry Pi**  
Track the tides with an e-ink display
- 64 **Tutorial Powered flight**  
Build a supercapacitor-powered plane
- 72 **Tutorial Metal stamping**  
Hammer, meet metal. Metal, meet design
- 76 **Tutorial Raspberry Pi Pico**  
Debugging without wires
- 78 **Tutorial 3D printing**  
Print faster with a speedy slicer

## 83 FIELD TEST

- 84 **Best of Breed Robot pets**  
Landlord won't let you have a dog? Build a robotic one instead!
- 90 **Review Adafruit Feather RP2040 Scorpio**  
Drive many, many NeoPixels from a Feather board
- 92 **Review Spintronics**  
Understand electronics via gears and chains
- 94 **Review Raspberry Pi Pico Debug Probe**  
Plug this in and fix all your problems. Well, some of them
- 96 **Crowdfunding**  
Harness wind-power, save polar bears

Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience and appropriate personal protection equipment. While we attempt to guide the reader, ultimately you are responsible for your own safety and understanding the limits of yourself and your equipment. HackSpace Magazine is intended for an adult audience and some projects may be dangerous for children. Raspberry Pi Ltd does not accept responsibility for any injuries, damage to equipment, or costs incurred from projects, tutorials or suggestions in HackSpace Magazine. Laws and regulations covering many of the topics in HackSpace Magazine are different between countries, and are always subject to change. You are responsible for understanding the requirements in your jurisdiction and ensuring that you comply with them. Some manufacturers place limits on the use of their hardware which some projects or suggestions in HackSpace Magazine may go beyond. It is your responsibility to understand the manufacturer's limits. HackSpace is published monthly by Raspberry Pi Ltd, Maurice Wilkes Building, St. John's Innovation Park, Cowley Road, Cambridge, CB4 0DS, United Kingdom. Publishers Service Associates, 2406 Reach Road, Williamsport, PA, 17701, is the mailing agent for copies distributed in the US and Canada. Application to mail at Periodicals prices is pending at Williamsport, PA. POSTMASTER: Send address changes to HackSpace, c/o Publishers Service Associates, 2406 Reach Road, Williamsport, PA, 17701.
