06 SPARK

- 06 **Top Projects**
Beautiful builds made by humans
- 18 **Objet 3d'art**
It's amazing what you can do with hot plastic
- 20 **Meet the Makers: EMF Camp**
Our report from the Glastonbury of makers
- 26 **Letters**
People love rockets. Fair enough...
- 28 **Crowdfunding**
A tiny Linux computer that Prince would have loved

31 LENS

- 32 **Pico W Projects**
Build connected projects with the new board from Raspberry Pi
- 46 **How I Made: Solar tracking head**
Free-form soldering meets solar power in a BEAM robot
- 52 **Interview: Andrew Sink**
Photogrammetry, printing, and all things 3D
- 60 **Improviser's Toolbox** Barbed wire
From the spiky came forth sweetness
- 64 **In the workshop** Beer keg BBQ
A metalwork project that combines two of our favourite things

How I Made BEAM robotics

46 Create a very simple AI with brass and capacitors

20

Interview Andrew Sink

52 That's one way to defeat face-recognition technology

Cover Feature

PICOW

PROJECTS

Make internet-connected builds with the **NEW \$6** microcontroller board

32

Tutorial Knitting

78 Turn programmatically stored information into physical patterns

104

69 FORGE

- 70 **SoM** Welding helmet
Pimp your PPE with budget-friendly add-ons
- 74 **SoM** Raspberry Pi
Time-lapse photography on a Raspberry Pi
- 78 **Tutorial** Knitting
Knitting: it's like coding, but with fabric
- 84 **Tutorial** Laser cutter
How to calibrate your newly improved K40
- 90 **Tutorial** Infrared photography
Another way to enjoy the wonders of nature
- 96 **Tutorial** Printing camera
Relive the glory days of Polaroid, with Python

103 FIELD TEST

- 104 **Best of Breed**
The best robotics add-ons for Raspberry Pi
- 112 **Review** Waveshare SX1262
Add LoRa capabilities to a Raspberry Pi Pico

70

Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience and appropriate personal protection equipment. While we attempt to guide the reader, ultimately you are responsible for your own safety and understanding the limits of yourself and your equipment. HackSpace Magazine is intended for an adult audience and some projects may be dangerous for children. Raspberry Pi Ltd does not accept responsibility for any injuries, damage to equipment, or costs incurred from projects, tutorials or suggestions in HackSpace Magazine. Laws and regulations covering many of the topics in HackSpace Magazine are different between countries, and are always subject to change. You are responsible for understanding the requirements in your jurisdiction and ensuring that you comply with them. Some manufacturers place limits on the use of their hardware which some projects or suggestions in HackSpace Magazine may go beyond. It is your responsibility to understand the manufacturer's limits. HackSpace magazine is published monthly by Raspberry Pi Ltd, Maurice Wilkes Building, St. John's Innovation Park, Cowley Road, Cambridge, CB4 0DS, United Kingdom.
