06

06 SPARK

- 06 **Top Projects**
The simple, the complex, the brilliantly creative
- 16 **Objet 3d'art**
Annoy passengers on public transport in style
- 18 **Letters**
What's going on? You tell us!

21 LENS

- 22 **Raspberry Pi 5**
A tiny form factor. A massive engineering project
- 36 **How I Made: L-Hex**
A beautiful mecanum-wheeled robotics project
- 44 **In the workshop: Guitar jig**
Measure cheap MDF twice; cut expensive hardwood once

Cover Feature

RASPBERRY PI 5

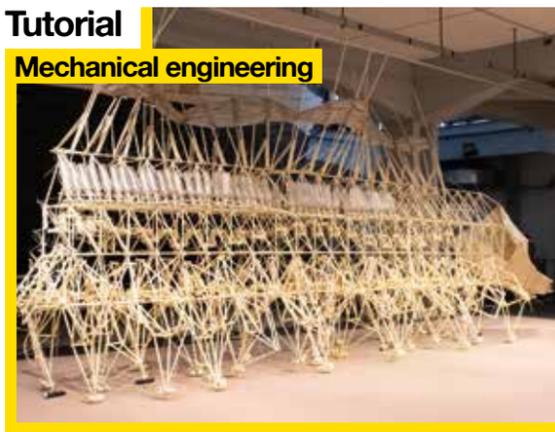

\$25 million
8 years
1 power switch

22

Tutorial

Mechanical engineering

64 Print useful things that convert motion into other forms of motion

36

68

Tutorial

Paper circuits

54 Copper tape and a simple circuit to make your greetings cards really shine

47 FORGE

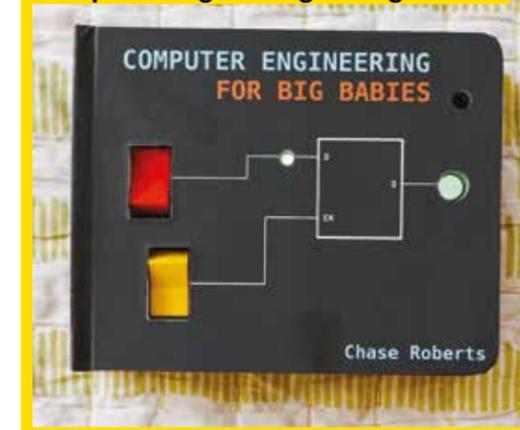

- 48 **SoM KiCad**
Organise your schematics
- 54 **Tutorial Paper circuits**
Enhance a greetings card with electricity
- 58 **Tutorial Raspberry Pi**
Build a 'whack-a-mole'-like game
- 64 **Tutorial 3D printing**
Mechanical engineering in fused deposition modelling
- 68 **Tutorial Bluetooth Pico controller**
Control a Raspberry Pi Pico over Bluetooth
- 74 **Tutorial Headphones**
Add Bluetooth to a pair of headphones, the hard way
- 78 **Tutorial Heat press part 2**
The sublime art of sublimation

84

Crowdfunding

Computer Engineering for Big Babies

96 It's never too early to learn how to produce the magic blue smoke

83 FIELD TEST

- 84 **Best of Breed**
Measure the passage of time with these clock kits
- 92 **Review Shaper Trace**
Scan real objects and turn them into SVG files
- 94 **Review Inkscape**
The premier SVG editor gets a much-needed upgrade
- 96 **Crowdfunding Computer Engineering...**
... for Big Babies. The book you never knew you needed

Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience and appropriate personal protection equipment. While we attempt to guide the reader, ultimately you are responsible for your own safety and understanding the limits of yourself and your equipment. HackSpace Magazine is intended for an adult audience and some projects may be dangerous for children. Raspberry Pi Ltd does not accept responsibility for any injuries, damage to equipment, or costs incurred from projects, tutorials or suggestions in HackSpace Magazine. Laws and regulations covering many of the topics in HackSpace Magazine are different between countries, and are always subject to change. You are responsible for understanding the requirements in your jurisdiction and ensuring that you comply with them. Some manufacturers place limits on the use of their hardware which some projects or suggestions in HackSpace Magazine may go beyond. It is your responsibility to understand the manufacturer's limits. HackSpace magazine is published monthly by Raspberry Pi Ltd, Maurice Wilkes Building, St. John's Innovation Park, Cowley Road, Cambridge, CB4 0DS, United Kingdom. Publishers Service Associates, 2406 Reach Road, Williamsport, PA, 17701, is the mailing agent for copies distributed in the US and Canada. Application to mail at Periodicals prices is pending at Williamsport, PA. Postmaster please send address changes to HackSpace magazine c/o Publishers Service Associates, 2406 Reach Road, Williamsport, PA, 17701.
